

## PENACH INTERNATIONAL SCHOOL HOLIDAY ASSIGNMENT

SUBJECT: ENGLISH LANGUAGE (THEORY QUESTIONS)

CLASS: BASIC 5

*INSTRUCTION:* ANSWER ALL QUESTIONS.

Marie is a young girl who lives in France. Every morning, she wakes up early and goes to school. She loves learning French and English. Her favorite subject is mathematics. On Mondays and Wednesdays, she has music lessons. She plays the piano very well.

Marie's birthday is in July, during the summer holidays. She likes to go to the beach with her family. In December, when it is cold, she enjoys drinking hot chocolate and reading books.

At home, Marie helps her mother set the table. She also helps her younger brother with his homework. Her favorite food is cheese and bread.

### 1. Comprehension Questions

- Where does Marie live?
- On which days does she have music lessons?
- What instrument does she play?
- What does she like to do in December?
- How does Marie help at home?

### 2. SECTION B: Answer one question from this section.

- Write a Formal letter to PENACH INTERNATIONAL SCHOOL requesting for the position of a Basic 5 teacher.
- Write a Formal invitation to your best friend inviting him/her to your birthday.

### 3. SECTION C: Complete this section with 'the same as', 'the same' or 'not the same as'.

John's school uniform is \_\_\_\_\_ his brother's because they attend the same school. However, his shoes are \_\_\_\_\_ his brother's because John wears black, and his brother wears brown.

In their class, the math teacher gives everyone \_\_\_\_\_ homework, but their English teacher gives different exercises. Their favorite subjects are \_\_\_\_\_ because both of them love science.

At lunch, John's meal is \_\_\_\_\_ his brother's because their mother packs similar food for them. However, their water bottles are \_\_\_\_\_ because John's is blue, and his brother's is red.
